

**N.C. DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES
DIVISION OF WASTE MANAGEMENT / SUPERFUND SECTION
INACTIVE HAZARDOUS SITES BRANCH**

TELEPHONE LOG

DATE: 08/20/08, 9:19 a.m.

SHEET: 1 OF 1

Call: Placed _____, Received X , Returned X

PROJECT: APAC-Castle Hayne	COUNTY: New Hanover
CONVERSATION WITH: Allen Jarmin	TELEPHONE: 252-559-0554
AFFILIATION: Barnhill Contracting, occupant	
DISCUSSION:	
<p>Allen said that he received our letter indicating they shouldn't drink the water. He thought the sampling was related to superfund site across the street. I told him that it was actually related to some previous lab results from that same well indicating it was contaminated. I realized that they didn't use that well for drinking but since it was readily accessible by the site workers, we issued the letter. He said okay and asked where he could hire someone to sample wells at other sites that they had. I told him that I couldn't recommend any company specifically, but he can look under environmental consultants, or sometimes the environmental labs themselves would take samples. He said okay.</p>
